## SAFETY

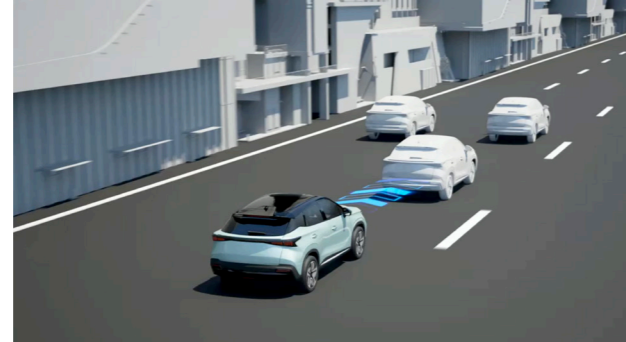

# CUTTING-EDGE TECHNOLOGY

Enjoy in a memorable journey and embrace the highest standards of luxury in the OMODA C5 EV, where powerful safety technology system 17 ADVANCED DRIVING ASSISTANT SYSTEM + 1 DRIVER MONITOR SYSTEM makes certain your faith and relaxation of consciousness.

### Autonomous emergency braking (AEB)

When a collision is imminent, an alarm alerts the driver. If the driver doesn't react, the vehicle brakes automatically to minimize impact and losses.

### Adaptive cruise control (ACC)

Automatically adjusts the vehicle's speed based on the preceding vehicles, maintaining a safe distance. This reduces driver stress and enhances comfort.

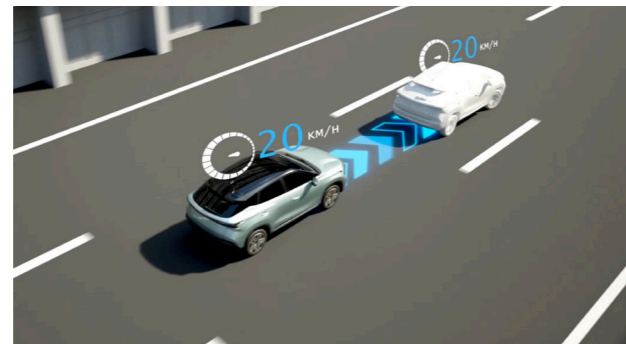

### Blind-spot detection (BSD)

It monitors vehicles in the rear areas on both sides, reminding the driver to pay attention to traffic and lane change safety.

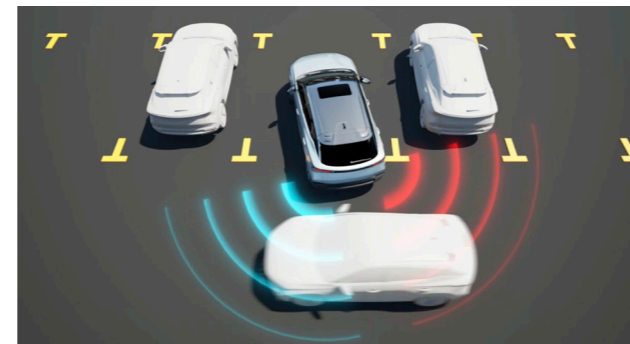

### Driver monitor system (DMS)

It helps the driver stay alert by monitoring fatigue levels and issuing warnings when necessary.

### Traffic jam avoidance assistant (TJA)

It maintains the speed set by the driver and can follow other vehicles at a safe distance.

### Rear cross traffic alert (RCTA)

Other road users approaching from the rear are monitored in real time while reversing. If a collision hazard is detected, warning messages are promptly issued.

The company reserves the right to change the models, technical specifications, systems, and both interior and exterior equipment at any time without prior notice. Images and colors shown in the document may differ from the actual products.
